

# How Suprasorb® A+Ag Pro impresses your colleagues:

RESULTS

## Excellent results:

**98%**  
Atraumatic dressing change

**98%**  
Removable in one piece

**99%**  
Conformability to the wound bed

**97%**  
Enclosure and removal of cell debris with dressing change

**99%**  
Wound covered after gelling

## Achieving the treatment goal:

**99%**  
Maintaining the moist wound environment

**91%**  
Autolytic debridement

**97%**  
Prevention of maceration

**98%**  
Preventing from getting an infection

**71%**  
Controlling the existing infection

## Antimicrobial properties

Reduction of inflammatory signs according to VAS scale:

**-61%**  
Rubor (redness) Reduction

**-54%**  
Dolor (pain) reduction

**-63%**  
Tumor (swelling) reduction

**-69%**  
Calor (overheating) reduction

**-29%**  
Functio laesa (restricted movement) reduction

DEMOGRAPHICS

Patients:

**91**

Average age:

**69** Years

Wound depth:

**58%**

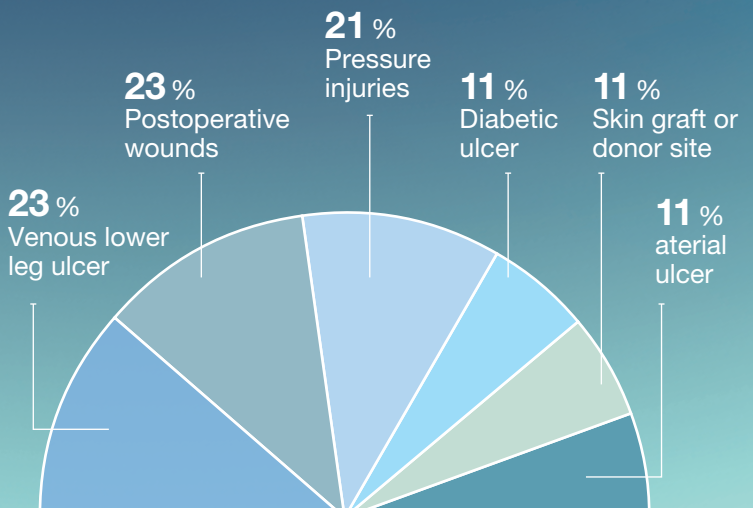

superficial

**42%**

deep
